EDUCATION

BSc Hons Computer Science with AI, University of Nottingham (Average 1:1) 2024 – Present

A Level Computer Science, Business, EPQ, Maths, Ebbsfleet Academy, Kent (A, A, A, B) 2022 – 2024

Skills

- Java, Python, JS & React
- Prototyping - Figma
- Agile Development & Jira
- Team Leadership

PROJECTS

Health Data Visualisation | University Group Project | Team Admin 🔗 2025 – 2026

- Developed an interactive **React + D3.js** data visualisation platform enabling exploration of **25+ years of NHS hospital admissions data** spanning **200M+ records**, delivering **8 charts** and a visualisation recommendation system; project awarded **4th** place out of **49** teams.
- Designed and developed visualisation components (**animated bubble chart** 🔗) and prototypes.
- Built **Higher or Lower: NHS HAPCA Edition** 🔗, an interactive guessing game, to give visitors an engaging introduction to the hospital admissions dataset at the project's public demo day.

PlantUML Drag & Edit | Node.js, Express, JavaScript 🔗 2026

- Built a **full-stack diagram editor** that adds manual layout control on top of **PlantUML**, letting users freely reposition classes and packages by dragging.
- Added advanced features making diagrams faster to customise, including instant colour changes, and visual outlines showing dragged objects' original positions.

Facial Pain Expression Detector | Python, MediaPipe, OpenCV, Matplotlib 🔗 2026

- Built a **real-time facial pain estimation** tool in **Python** using MediaPipe's face landmark and blendshape detection, computing a pain intensity score from webcam or video input.
- Implemented **baseline calibration** and **temporal smoothing** to reduce noise from natural facial movement and improve accuracy of live pain detection.
- Generated automated **visualisation** (trajectory and pain intensity score over time) to support analysis and tuning.

RELATED WORK EXPERIENCE

Computer Science Subject Ambassador, University of Nottingham 2026 – Present

- **Welcomed** and **presented** group project work to **60+** prospective students and parents across 3 open days, shared personal insights on student life and guided them through course options.

Analyst & Coordinator, Chiron Health AI (Spring Placement) 🔗 2025

- **Led a team of 7**, managing workflow and stakeholder communication to deliver a strategic **report** on integrating RAG models, LLMs, and agentic workflows for an healthcare AI start-up in under two weeks to a high standard.
- **Researched and co-authored** SME healthcare AI recommendations **synthesising 20+** academic and industry sources, covering cost optimization, NHS/GDPR compliance, and bias mitigation.

Front of House Member, Gourmet Burger Kitchen (GBK), Bluewater Shopping Centre 2022 – 2023

- Served as a **host** by greeting an average of **50+** guests per shift, **managing bookings** and seating along with **resolving customer complaints**.
- Worked in a fast-paced setting as a **server**, managing **5-8** tables at a time.

EXTRACURRICULAR & VOLUNTEERING

Manager of Outgoing Exchanges & Internal Communications, AIESEC Nottingham [🔗](#) 2025 – Present

- Working on **marketing campaigns** and **managing social media accounts** for the Nottingham branch of the world's biggest youth-led nonprofit organisation.
- Conducted **100+ cold calling** and **targeted outreach** to prospective students, **pitching** international exchange programmes.
- **Automated** outreach to universities and partner organisations, reducing manual coordination time by **~60%**.
